

# AirWave®

THE FIRST 100% CLIMATE-NEUTRAL AIRCUSHION FILM

## EcoWave50

With EcoWave air cushions, you can achieve 100% climate neutral transport protection for the safe shipping of your valuable goods. Suitable for all AirWave and AirBoy machines from AirWave.

# EcoWave50 produced 100% climate neutral

EcoWave50 air cushion film is made using more than 53% recycled content, most of which is collected post consumer plastic.

With the support of rainforest projects, we actively contribute all CO<sub>2</sub> from production and the raw materials. The combination of this results in a 100% compensation of the CO<sub>2</sub> footprint of Floeter ClimaFilm.

## 100% AirWave transport protection with 100% climate-neutral film.
